WELCOME TO MEXICO CITY

The Congress will be held in Mexico City, world-wide recognized for its ancient history, as well as its many monuments, museums, palaces and temples, churches and colonial buildings.

Examples of the mixing of indigenous and Spanish traditions, in their foods, music, religion, and architecture are endless, creating one of the most unique and emulated cultures in the world.

Visitors to Mexico City can enjoy a wide variety of world class cultural, gastronomic and entertainment options.

Less than one hour away you can visit the pyramids of Teotihuacan (“City of the Gods”), one of the most enigmatic, as well as impressive, archaeological sites in North America.

Within very short distances from Mexico City, there are multiple attractive destinations, ranging from magical towns to wonderful beaches. This is a great opportunity to combine professional, cultural and spiritual enrichment.

Dear Collegues:

It is a privilege, for ICMART (International Council of Medical Acupuncture and Related Techniques) & FILASMA (Federación Ibero-Latinoamericana de Sociedades Médicas de Acupuntura), represented by COMAH (Colegio Mexicano de Acupuntura Human, A.C.), to invite you to the First World Medical Congress ICMART-FILASMA Mexico 2017, entitled “Evolution in Science: Medical Acupuncture on the World’s Health Integration”, that will take place in Mexico City, on June 2-4, 2017.

For the first time, both ICMART and FILASMA, two umbrella associations representing medical acupuncture, have come together to organize one of the biggest acupuncture scientific events in the world.

Over the last decades, acupuncture has been recognized as an indispensable therapeutic resource in health care, and modern scientific research has been widely promoted. Likewise, the investigation and analysis of classic Chinese medicine theories and their correlation to modern medicine, has opened a fascinating horizon of knowledge.

We must promote and spread the results of research realized in the vast field of traditional Chinese medicine and modern acupuncture, having a permanent forum for international academic exchange.

The practice of acupuncture has become an example of unity and integration of physicians and medical acupuncture societies in favor of worldwide health.

Konstantina Theodoratou MD, MSc Med. Psych  
President of ICMART

Francisco Lozano MD, PhD  
President of FILASMA and COMAH

Main Topics

1. The role of acupuncture in the integration of world’s health
2. Progress in basic and clinical research of acupuncture
3. Modern analysis of Chinese medicine’s classical theories
4. Acupuncture in the integrative management of chronic degenerative diseases
5. Acupuncture as a complementary resource in Cancer management
6. Acupuncture as a preventive method

The Iberic-Latinamerican Federation of Medical Acupuncture Societies (FILASMA by its Spanish acronym), is a civil scientific entity, formed by a group of medical acupuncture societies, established over 20 years ago, legally constituted in Latin America, Spain and Portugal. FILASMA is exclusively conformed by practicing physicians.

The International Council of Medical Acupuncture and Related Techniques, is an international organization, founded 33 years ago, which represents Medical Acupuncture and Related Techniques worldwide. It comprises more than 80 associations, with over 35,000 physicians that promote the concept of evidence-based medicine, regarding its efficacy, safety and cost effectiveness.

The Mexican College of Human Acupuncture is an organization that gather specialists to promote the development of medical acupuncture and traditional Chinese medicine, to spread their knowledge, pursue higher standards in education and clinical practice, promote scientific research and academic growth, as well as link and support to education and health institutions in Mexico and worldwide, to regulate its’ professional service and guarantee a safe and effective practice for the well being of mankind.
